

Steps to get your Digital Credentials

Step 1

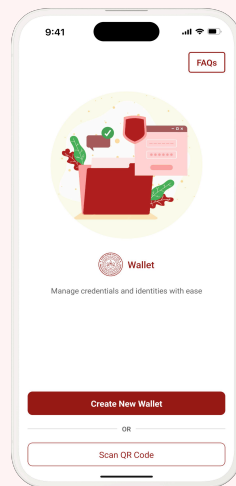

To get your digital credentials, download the IITK App using the following links:

- [Google Play Store](#)
- [Apple App Store](#)

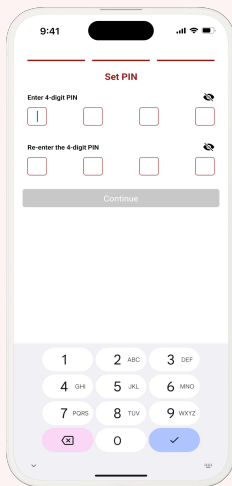

Step 2

Create your wallet.

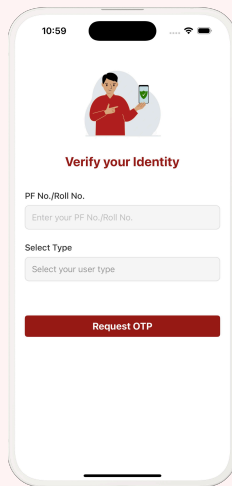

Step 3

Secure your wallet by setting a 4 digit PIN.

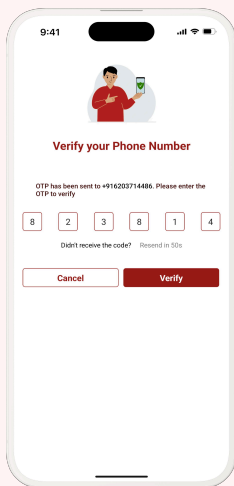

Step 4

Verify your identity by entering your PF No./Roll No. & User Type.

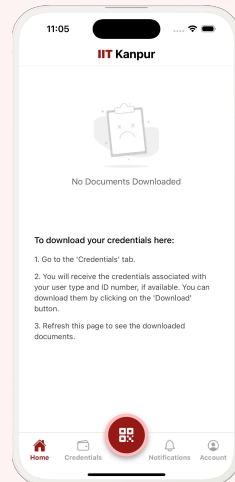

Step 5

You would receive OTP on your phone number associated with above credentials. Verify your OTP.

Step 6

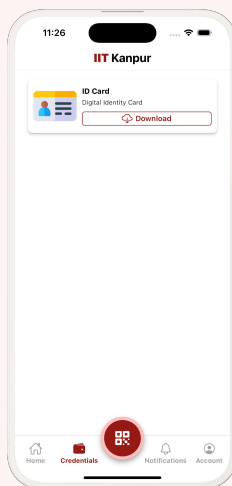

If the documents are not downloaded yet, follow the home screen instructions.

Step 7

In the credentials tab, you will receive the credentials associated with your ID no. & User Type.

Click on Download button to download the credentials & store it on your mobile wallet.

Step 8

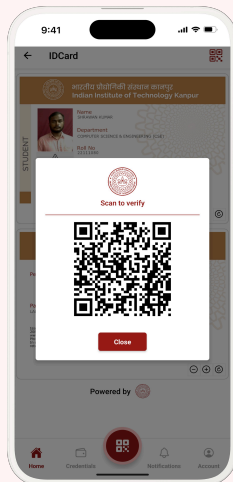

Congratulations!

Now you have successfully added your credentials to your wallet.

Step 9

Click on the QR code icon on your ID to generate the QR code.

Step 10

You can scan the QR code to verify the authenticity of ID card.
